

# Take a Closer Look

Housekeepers can now achieve maximum cleaning performance with guaranteed dilution control AND still minimise packaging waste.

If you have ever tried chemical dosing systems in the past and had a bad experience, then take a closer look at the new system from R.P Adam LTD. We all know that lowest in use costs, highest product performance and efficient waste management are burning issues within the hotel and hospitality sector today.

This latest innovation will appeal to the budget conscious manager who will not compromise on quality and yet strives for a simple and yet highly effective dilution system.

#### Easy to install & service

- No need for water connections,

plumbing work or electricity

- Compact design allows fitting in restricted space locations
- Flexibility in siting which allows best choice of location for each cleaning task
- No service required – no breakdowns or replacement/refurbishment of parts

#### User Safety Guaranteed

- Secure and lockable dispenser – compliant with COSHH
- Lockable dispenser offering security for higher value concentrates
- All dispenser option will only dose concentrates when dispensers are enabled
- No splashing or dripping

#### Cost effective

- Controlled vending with accurate dosing guaranteed
- A pre-set delay mechanism restricts over dosing
- Lowest in use costs per bottle, sink and bucket
- Re-usable spray bottles mean lower in use costs every time the bottle is filled
- Lower storage and transaction costs

#### Friendly to the environment

- All concentrates are biodegradable and none are corrosive
- Reduced packaging waste from smaller concentrate containers
- Reduced packaging waste from re-usable spray bottles

#### Easy to use ▶▶▶▶▶

- A "pull-push" delivery system dispenses concentrates to water
- Operator has no choice but to take the correct dose every time
- Each dispenser holds one 2lt concentrate flask
- Transparent dispenser front shows when containers are empty and the correct concentrate has been loaded

#### ▼ The concentrates

- ▼ Controlling dilution is only half the battle, the products need to work well - but perform better than the rest. Our new range is colour coded in concentrate, ready to use and in label format and consists of the following products and pack sizes:

A1 Glass & Stainless Steel Cleaner

A2 Air Freshener & Odour Neutraliser

A4 Perfumed Surface Cleaner/Sanitiser

A6 Floor Cleaner & Maintainer

A7 Catering Degreaser/Sanitiser

A8 Bactericidal Neutral Detergent

A9 Neutral Detergent
